1. Background

On 24 March 2021 the Commission adopted the EU Strategy on the rights of the child³ which includes more than 40 actions that the Commission will implement or start implementing by 2024.

The work on the strategy was informed by consultations with children (online and offline) and resulted in more than 10.000 replies to an online questionnaire only.⁴

Children were asked among other things about how they felt they were involved in decision making processes. A vast majority of children (70%) would like to participate more in taking decisions that affect their lives. In the Europe Kids wants⁵ survey from 2018/19, only 7% of children indicated they felt they were always listened to, including children in vulnerable situations.

The mapping study on child participation in EU democratic and political life finalised in February 2021⁶ showed that in only 4 out of 27 countries, governments must include children or young people's opinion in decision-making processes by law. It also emphasised how often child participation is not having much impact on governments' decisions.

To tackle all the above, the first thematic area of the EU Strategy on the rights of the child is about child participation, understood as a right for children to be heard and an obligation for adults to facilitate it and organise it in a meaningful, inclusive and safe way.⁷

⁷ Article 24 of the Charter of the Fundamental Rights of the European Union and Article 12 of the United Nations Convention on the rights of the child (UNCRC)

Meaningful child participation: is a process that is rooted in Article 12 of the UNCRC. Such participation is based on mutual respect, must be transparent and voluntary, and moderated using child friendly tools and working methods, supported by training and access to information. Any activity involving children must include access to clear and age appropriate information about the objectives, procedures, timing, and involvement of third parties, safety procedures and must finish with a feedback/ follow up session. Children must be informed about how their input will be taken into account.⁸

Inclusive child participation: this is one of the elements of the meaningful child participation. It means that efforts are made to include and engage with children coming from different geographical areas, various socio-economic backgrounds, and minority groups, including children with disabilities. Such participation ensures gender and age diversity.

Safe child participation: a pre-condition of participation. It means that children have a safe space to express their views, participate in activities and a safe channel to complaint and voice their concerns. Child protection policy (CPP) that describe safeguarding measures to protect children from harm must be made available on the website and reviewed on a regular basis. Relevant safeguards must be put in place for meetings and other forms of offline and online communication. Staff, including volunteers and trainees must receive an entry training on CPPs and a regular reminding training on that.⁹

The Commission has already undertaken and will continue implementing more actions in order to bring children closer to the decision making processes. One of such initiative is the future set-up of the EU Children's Participation platform that will connect existing and to be created child participation mechanisms. The Commission has also supported child participation at local and national level, including via funding (REC 2020¹⁰ and CERV 2021¹¹) and intends to push for and finance more systemic changes at the local and national level to support the implementation of the first thematic pillar of the strategy.

The call recognises the need for proposals to equally address the specificities of the situation for girls and boys, in all their diversity.

2. Objectives – Themes and priorities – Activities that can be funded – Expected impact

Objectives

Supporting, advancing and implementing comprehensive policies to protect and promote the rights of the child.

Policy initiatives supported: EU strategy on the rights of the child.

Themes and priorities (scope)

This call for proposals will contribute to the implementation of the first thematic area of the EU Strategy on the rights on the rights of the child – Participation in political

⁸ See Lundy model for more information about child participation: https://ec.europa.eu/info/sites/default/files/lundy_model_of_participation.pdf

and democratic life: an EU that empowers children to be active citizens and members of democratic societies.¹²

This priority aims at mutually reinforcing efforts undertaken at the European level by the Commission with those happening in the EU Members States. The call aims to strengthen the sustainability and impact of child participation mechanisms (existing or to be created) at local and national level in decision making processes.

Therefore in this call, strong involvement of local, regional and national public authorities is essential as it contributes to the sustainability of the results and ensures more systemic changes. This can be achieved by allocating adequate resources for new and existing mechanisms of child participation, through education on citizenship, equality and participation in democratic processes in schools, capacity building for adults on how to engage in discussions with children in a meaningful way and awareness raising and training activities for children.

Schools are a natural environment where children can exercise and nurture participatory activities together with their peers and experience the impact of their engagement on their daily lives. There is already a wealth of good practices on establishing school advisory boards, councils or national school student's councils.¹³ Therefore this call also targets schools to support their efforts in creating safe, nurturing and meaningful environment and involve children in the school's daily life and decision making.

Awareness on children's rights is a precondition to ensure effective and meaningful participation of children, in particular to ensure the right of the child to be heard and listened to. Children, professionals working with and for children, the media, the public, politicians and policy-makers need to know the rights of the child to effectively implement the right to be heard.

Activities that can be funded (scope)

- establishing long-term and sustainable programmes, and child participation mechanisms at local and national level, including in schools;
- providing support and expanding the operational scope of existing child participation mechanisms with the aim of embedding them in the wider decision making processes and democratic system at local and national level;
- mutual learning, training activities, exchange of good practices, cooperation, including identifying good practices;
- capacity building and training activities of national, regional and local authorities;
- Training and awareness raising activities for children and adults on the right to be heard and on child participation.

¹² https://ec.europa.eu/info/policies/justice-and-fundamental-rights/rights-child/child-participation-political-and-democratic-life_en

¹³ Some examples are listed in the report from the mapping on child participation in EU democratic and political life, https://ec.europa.eu/info/sites/default/files/child_participation_final_raport_revised_28.04.2021_final_web_pdf.pdf

The design and implementation of actions should be done in cooperation with children, to make sure that the action is well tailored to children's needs. All actions and activities, both at design, consultation and implementation phase, shall ensure that actions are adequate to the age and gender specific needs of children.

Thus, applicants should conduct and include in their proposal a gender analysis, which maps the potential different impact of the project and its activities on women and men as well as girls and boys in all their diversity. Thereby, unintended negative effects of the intervention on girl and boys of all ages should be forestalled (do no-harm approach).¹⁴

Organisations are expected to provide the mandatory annex with child protection policies. This is valid for those partners that will be working directly with children (this should be clearly indicated in the proposal) and will be assessed under the award criterion (2) quality of proposed actions and under ethics.

Applying organisations are encouraged to use, disseminate and build on already existing materials (e.g. tools, projects' deliverables, handbooks, research, studies, mapping exercises, reports, etc.) and to explain how they will do so in the proposal.

Expected impact

- Implementation of the EU Strategy on the rights of the child, and in particular of its recommendations to EU Member States;
- enhanced child participation at local and national level, including in schools;
- strengthened knowledge and expertise on how to embed child participation in decision making at local and national level;
- increased space provided by local authorities for girls and boys in all their diversity to make their voice heard on issues related to the communities where they live and that matter to them;
- established long-term child participation mechanisms at local and national level, including in schools;
- increased awareness on and general knowledge of children's right to be heard and on child participation, especially with regard to public decision making processes as well as and their practical implementation, among the general population, professionals working with children, and children themselves;

Support of public authority

It is strongly encouraged to involve a public authority, including regional and local authorities, to actively participate in the projects. For projects related to gender-based violence, these public authorities can be national, regional or local Ministries/agencies/equality bodies responsible for gender equality and/or provision of services to victims of violence or perpetrators; police, judicial, health or education authorities etc., as relevant.

This support will be expressed through an Annex to the application to the application (Letter from the public authority) and will be assessed under the award criterion 2 Quality.

Mainstreaming

¹⁴ For more information see section *Ethics and EU values*

Projects funded under this call shall seek to **promote equality between women and men and the rights of the child**. Gender and rights of the child mainstreaming means integrating a gender and rights of the child perspective in the design, implementation, monitoring and evaluation of a project, as appropriate. Consequently, when relevant, the applicant shall take the necessary steps to ensure that gender equality and child-related issues are taken into account by paying attention to the situation and particular needs of women and men and of children. It is, for example, essential that projects do not silence, stereotype, stigmatise, lay the blame on or discriminate against women or men. Projects should contribute to empowering women and to ensuring that they achieve their full potential and enjoy the same rights as men.

Child participation and protection

All proposals are expected to respect the child's right to participate¹⁵ and all project activities must clearly integrate and protect the child's right to be heard¹⁶. Proposals must make children's involvement central and integral in every stage of the project's design, implementation and evaluation.

Child protection policies will be also assessed for projects directly involving children. This assessment will be integrated into award criteria and will also be considered under ethics (ie proposals, which directly involve children and fail to provide a diligent child protection policy, will be regarded as less relevant and of lower quality). Organisations that will plan working directly with children must have a child protection policy (mandatory annex to the submission package) covering the four areas described in the [Keeping Children Safe Child Safeguarding Standards](#). This policy must be available online and transparent to everyone who comes in contact with the organisation. It must include clear information about the recruitment of staff (including trainees and volunteers) and include background checks (vetting). It must also include clear procedures and rules to staff, including reporting rules, and continuous training. It should be clearly indicated in the application which partners will work directly with children.

6. Eligibility

Eligible participants (eligible countries)

In order to be eligible, the applicants (beneficiaries and affiliated entities) must:

- be legal entities (public or private bodies)
- be established in one of the eligible countries, i.e.:
 - EU Member States (including overseas countries and territories (OCTs))
 - non-EU countries:
 - countries associated to the CERV Programme or countries which are in ongoing negotiations for an association agreement and where the agreement enters into force before grant signature ([list of participating countries](#))
- other eligibility conditions:
 - a) organisations which are profit-oriented must submit applications in partnership with public entities or private non-profit organisations;
 - b) the project can be either national or transnational;

- c) the application must involve at least two organisations (applicant and partner);
- d) the EU grant applied for cannot be lower than EUR 75 000.

Beneficiaries and affiliated entities must register in the [Participant Register](#) — before submitting the proposal — and will have to be validated by the Central Validation Service (REA Validation). For the validation, they will be requested to upload documents showing legal status and origin.

Other entities may participate in other consortium roles, such as associated partners, subcontractors, third parties giving in-kind contributions, etc (*see section 13*).

Specific cases

Natural persons — Natural persons are NOT eligible (with the exception of self-employed persons, i.e. sole traders, where the company does not have legal personality separate from that of the natural person).

International organisations — International organisations are eligible. The rules on eligible countries do not apply to them.

Entities without legal personality — Entities which do not have legal personality under their national law may exceptionally participate, provided that their representatives have the capacity to undertake legal obligations on their behalf, and offer guarantees for the protection of the EU financial interests equivalent to that offered by legal persons¹⁷.

EU bodies — EU bodies (with the exception of the European Commission Joint Research Centre) can NOT be part of the consortium.

Associations and interest groupings — Entities composed of members may participate as 'sole beneficiaries' or 'beneficiaries without legal personality'¹⁸.  Please note that if the action will be implemented by the members, they should also participate (either as beneficiaries or as affiliated entities, otherwise their costs will NOT be eligible).

Programme Contact Points — Are eligible as coordinator or beneficiary in open calls, if they have procedures to segregate the project management and the information provision functions and if they are able to demonstrate cost separation (i.e. that their project grants do not cover any costs which are covered by their other grant). This requires the following:

- use of analytical accounting which allows for a cost accounting management with cost allocation keys and cost accounting codes AND application of these keys and codes to identify and separate the costs (i.e. to allocate them to either one of the two grants)
- recording of all real costs incurred for the activities that are covered by the two grants (including the indirect costs)
- allocation of the costs in a way that leads to a fair, objective and realistic result.

¹⁷ See Article 197(2)(c) EU Financial Regulation [2018/1046](#).

¹⁸ For the definitions, see Articles 187(2) and 197(2)(c) EU Financial Regulation [2018/1046](#).

Countries currently negotiating association agreements — Beneficiaries from countries with ongoing negotiations (*see above*) may participate in the call and can sign grants if the negotiations are concluded before grant signature (with retroactive effect, if provided in the agreement).

EU restrictive measures — Special rules apply for certain entities (*e.g. entities subject to [EU restrictive measures](#) under Article 29 of the Treaty on the European Union (TEU) and Article 215 of the Treaty on the Functioning of the EU (TFEU)*¹⁹ and entities covered by Commission Guidelines No [2013/C 205/05](#)²⁰). Such entities are not eligible to participate in any capacity, including as beneficiaries, affiliated entities, associated partners, subcontractors or recipients of financial support to third parties (if any).

 For more information, see [Rules for Legal Entity Validation, LEAR Appointment and Financial Capacity Assessment](#).

Consortium composition

Proposals must be submitted by a consortium of at least 2 applicants (beneficiaries; not affiliated entities)

Financial support to third parties is not allowed.

Geographic location (target countries)

Proposals must relate to activities taking place in the eligible countries (*see above*).

Duration

Projects should normally range between 12 and 24 months (extensions are possible, if duly justified and through an amendment).

- EU values based on Article 2 of the Treaty on the European Union and Article 21 of the EU Charter of Fundamental Rights and
- other applicable EU, international and national law (including the General Data Protection Regulation [2016/679](#)).

Projects must seek to promote gender equality and non-discrimination mainstreaming in accordance with the [Gender Mainstreaming Toolkit](#). They should also seek to reduce levels of discrimination suffered by particular groups (as well as those at risk of multiple discrimination) and to improve equality outcomes for individuals²¹. Proposals should integrate gender and non-discrimination considerations in proposals and target a gender-balanced representation in project teams and activities. It is also important that individual data collected by the beneficiaries are broken down by sex ([sex-disaggregated data](#)), disability or age whenever possible.

The financial capacity check will be carried out on the basis of the documents you will be requested to upload in the [Participant Register](#) during grant preparation (*e.g. profit and loss account and balance sheet, business plan, audit report produced by an approved external auditor, certifying the accounts for the last closed financial year, etc*). The analysis will be based on neutral financial indicators, but will also take into account other aspects, such as dependency on EU funding and deficit and revenue in previous years.

The check will normally be done for all beneficiaries, except:

- public bodies (entities established as public body under national law, including local, regional or national authorities) or international organisations
- if the individual requested grant amount is not more than EUR 60 000.

If needed, it may also be done for affiliated entities.

If we consider that your financial capacity is not satisfactory, we may require:

- further information

²¹ [Non-discrimination mainstreaming– instruments, case studies and way forwards](#)

- an enhanced financial responsibility regime, i.e. joint and several responsibility for all beneficiaries or joint and several liability of affiliated entities (*see below, section 10*)
 - prefinancing paid in instalments
 - (one or more) prefinancing guarantees (*see below, section 10*)
- or
- propose no prefinancing
 - request that you are replaced or, if needed, reject the entire proposal.

For more information, see [Rules for Legal Entity Validation, LEAR Appointment and Financial Capacity Assessment](#).

Operational capacity

Applicants must have the **know-how, qualifications** and **resources** to successfully implement the projects and contribute their share (including sufficient experience in projects of comparable size and nature).

If the evaluation of the award criterion is positive, the applicants are considered to have sufficient operational capacity.

Applicants will have to show their capacity via the following information:

- general profiles (qualifications and experiences) of the staff responsible for managing and implementing the project
- description of the consortium participants
- applicants' activity reports of last year
- list of previous projects (key projects for the last 4 years).

Additional supporting documents may be requested, if needed to confirm the operational capacity of any applicant.

Public bodies, Member State organisations and international organisations are exempted from the operational capacity check.

Exclusion

Applicants which are subject to an **EU exclusion decision** or in one of the following **exclusion situations** that bar them from receiving EU funding can NOT participate²²:

- bankruptcy, winding up, affairs administered by the courts, arrangement with creditors, suspended business activities or other similar procedures (including procedures for persons with unlimited liability for the applicant's debts)
- in breach of social security or tax obligations (including if done by persons with unlimited liability for the applicant's debts)
- guilty of grave professional misconduct²³ (including if done by persons having powers of representation, decision-making or control, beneficial owners or persons who are essential for the award/implementation of the grant)

²² See Articles 136 and 141 of EU Financial Regulation [2018/1046](#).

²³ Professional misconduct includes: violation of ethical standards of the profession, wrongful conduct with impact on professional credibility, false declarations/misrepresentation of information, participation in a cartel or other agreement distorting competition, violation of IPR, attempting to

- committed fraud, corruption, links to a criminal organisation, money laundering, terrorism-related crimes (including terrorism financing), child labour or human trafficking (including if done by persons having powers of representation, decision-making or control, beneficial owners or persons who are essential for the award/implementation of the grant)
- shown significant deficiencies in complying with main obligations under an EU procurement contract, grant agreement, prize, expert contract, or similar (including if done by persons having powers of representation, decisionmaking- or control, beneficial owners or persons who are essential for the award/implementation of the grant)
- guilty of irregularities within the meaning of Article 1(2) of Regulation No [2988/95](#) (including if done by persons having powers of representation, decisionmaking- or control, beneficial owners or persons who are essential for the award/implementation of the grant)
- created under a different jurisdiction with the intent to circumvent fiscal, social or other legal obligations in the country of origin or created another entity with this purpose (including if done by persons having powers of representation, decisionmaking- or control, beneficial owners or persons who are essential for the award/implementation of the grant).

Applicants will also be refused if it turns out that²⁴:

- during the award procedure they misrepresented information required as a condition for participating or failed to supply that information
- they were previously involved in the preparation of the call and this entails a distortion of competition that cannot be remedied otherwise (conflict of interest).

8. Evaluation and award procedure

An **evaluation committee** (assisted by independent outside experts) will assess all applications. Proposals will first be checked for formal requirements (admissibility, and eligibility, *see sections 5 and 6*). Proposals found admissible and eligible will be evaluated against the operational capacity and award criteria (*see sections 7 and 9*) and then ranked according to their scores.

For proposals with the same score (within a topic or budget envelope) a **priority order** will be determined according to the following approach:

Successively for every group of *ex aequo* proposals, starting with the highest scored group, and continuing in descending order:

- 1) The *ex aequo* proposals within the same topic will be prioritised according to the scores they have been awarded for the award criterion 'Relevance'. When these scores are equal, priority will be based on their scores for the criterion 'Quality'. When these scores are equal, priority will be based on their scores for the criterion 'Impact'.

All proposals will be informed about the evaluation result (**evaluation result letter**). Successful proposals will be invited for grant preparation; the other ones will be put on the reserve list or rejected.

influence decision-making processes or obtain confidential information from public authorities to gain advantage.

²⁴ See Article 141 EU Financial Regulation [2018/1046](#).

No commitment for funding — Invitation to grant preparation does NOT constitute a formal commitment for funding. We will still need to make various legal checks before grant award: *legal entity validation, financial capacity, exclusion check, etc.*

Grant preparation will involve a dialogue in order to fine-tune technical or financial aspects of the project and may require extra information from your side. It may also include adjustments to the proposal to address recommendations of the evaluation committee or other concerns. Compliance will be a pre-condition for signing the grant.

If you believe that the evaluation procedure was flawed, you can submit a **complaint** (following the deadlines and procedures set out in the evaluation result letter). Please note that notifications which have not been opened within 10 days after sending are considered to have been accessed and that deadlines will be counted from opening/access (see also [Funding & Tenders Portal Terms and Conditions](#)). Please also be aware that for complaints submitted electronically, there may be character limitations.

9. Award criteria

The **award criteria** for this call are as follows:

- **Relevance:** extent to which the proposal matches the priorities and objectives of the call; clearly defined needs and robust needs assessment; clearly defined target group, with gender perspective being appropriately taken into account; contribution to the EU strategic and legislative context; European/trans-national dimension; impact/interest for a number of countries (EU or eligible non-EU countries); possibility to use the results in other countries (potential for transfer of good practices); potential to develop mutual trust/cross-border cooperation (40 points)
- **Quality:** clarity and consistency of project; logical links between the identified problems, needs and solutions proposed (logical frame concept); methodology for implementing the project with gender perspective being appropriately taken into account (organisation of work, timetable, allocation of resources and distribution of tasks between partners, risks & risk management, monitoring and evaluation); ethical issues are addressed; feasibility of the project within the proposed time frame; financial feasibility (sufficient/appropriate budget for proper implementation; cost-effectiveness (best value for money) (40 points)
- **Impact:** ambition and expected long-term impact of results on target groups/general public; appropriate dissemination strategy for ensuring sustainability and long-term impact; potential for a positive multiplier effect; sustainability of results after EU funding ends (20 points)

Award criteria	Minimum pass score	Maximum score
Relevance	25	40
Quality — Project design and implementation	n/a	40
Impact	n/a	20
Overall (pass) scores	70	100

Maximum points: 100 points.

Individual threshold for the criterion 'Relevance': 25/40 points.

Overall threshold: 70 points.

Proposals that pass the individual threshold for the criterion 'Relevance' AND the overall threshold will be considered for funding — within the limits of the available call budget. Other proposals will be rejected.

10. Legal and financial set-up of the Grant Agreements

If you pass evaluation, your project will be invited for grant preparation, where you will be asked to prepare the Grant Agreement together with the EU Project Officer.

This Grant Agreement will set the framework for your grant and its terms and conditions, in particular concerning deliverables, reporting and payments.

The Model Grant Agreement that will be used (and all other relevant templates and guidance documents) can be found on [Portal Reference Documents](#).

Starting date and project duration

The project starting date and duration will be fixed in the Grant Agreement (*Data Sheet, point 1*). Normally the starting date will be after grant signature. The action should start within 6 months following the Grant Agreement signature, except in duly justified cases. Retroactive application can be granted exceptionally for duly justified reasons — but never earlier than the proposal submission date.

Project duration: between 12 and 24 months (extensions are possible, if duly justified and through an amendment).

Milestones and deliverables

The milestones and deliverables for each project will be managed through the Portal Grant Management System and will be reflected in Annex 1 of the Grant Agreement.

Beneficiaries will have to ask attendees in events to participate in the EU Survey on Justice, Rights and Values. This survey allows the granting authority to closely monitor training, mutual learning and awareness-raising events. The beneficiaries will receive a weblink to the survey, to be forwarded to the attendees. They will have access to the survey results for their project and can use it for their project evaluation. The granting authority will aggregate the results of all the projects financed under the CERV programme.

Form of grant, funding rate and maximum grant amount

The grant parameters (*maximum grant amount, funding rate, total eligible costs, etc*) will be fixed in the Grant Agreement (*Data Sheet, point 3 and art 5*).

Project budget (maximum grant amount): are expected to range between:

- the EU grant applied for cannot be lower than EUR 75 000.

The grant awarded may be lower than the amount requested.

The grant will be a budget-based mixed actual cost grant (actual costs, with unit cost and flat-rate elements). This means that it will reimburse ONLY certain types of costs (eligible costs) and costs that were *actually* incurred for your project (NOT the

budgeted costs). For unit costs you can charge the amounts calculated as explained in the Grant Agreement (*see art 6 and Annex 2 and 2a*).

The costs will be reimbursed at the funding rate fixed in the Grant Agreement (**90%**).

Grants may NOT produce a profit (i.e. surplus of revenues + EU grant over costs). For-profit organisations must declare their revenues and, if there is a profit, we will deduct it from the final grant amount (*see art 22.3*).

Moreover, please be aware that the final grant amount may be reduced in case of non-compliance with the Grant Agreement (*e.g. improper implementation, breach of obligations, etc*).

Budget categories and cost eligibility rules

The budget categories and cost eligibility rules are fixed in the Grant Agreement (*Data Sheet, point 3, art 6 and Annex 2*).

Budget categories for this call:

- A. Personnel costs
 - A.1 Employees, A.2 Natural persons under direct contract, A.3 Seconded persons
 - A.4 SME owners and natural person beneficiaries
 - A.5 Volunteers
- B. Subcontracting costs
- C. Purchase costs
 - C.1 Travel and subsistence
 - C.2 Equipment
 - C.3 Other goods, works and services
- E. Indirect costs

Specific cost eligibility conditions for this call:

- personnel costs:
 - SME owner/natural person unit cost: Yes
 - volunteers unit cost²⁵: Yes (without indirect costs)
- travel and subsistence unit cost²⁶: Yes
- equipment costs: depreciation
- other cost categories:
 - costs for financial support to third parties: not allowed
- indirect cost flat-rate: 7% of the eligible direct costs (categories A-D, except volunteers costs and exempted specific cost categories, if any)

²⁵ Commission [Decision](#) of 10 April 2019 authorising the use of unit costs for declaring personnel costs for the work carried out by volunteers under an action or a work programme (C(2019)2646).

²⁶ Commission [Decision](#) of 12 January 2021 authorising the use of unit costs for travel, accommodation and subsistence costs under an action or work programme under the 2021-2027 multi-annual financial framework (C(2021)35).

- VAT: non-deductible VAT is eligible (but please note that since 2013 VAT paid by beneficiaries that are public bodies acting as public authority is NOT eligible)
- other:
 - in-kind contributions for free are allowed, but cost-neutral, i.e. they cannot be declared as cost
 - kick off meeting: costs for kickoff meeting organised by the granting authority are eligible (travel costs for maximum 2 persons, return ticket to Brussels and accommodation for one night) only if the meeting takes place after the project starting date set out in the Grant Agreement; the starting date can be changed through an amendment, if needed
 - project websites: communication costs for presenting the project on the participants' websites or social media accounts are eligible; costs for *separate* project websites are not eligible
 - other ineligible costs: No

Volunteers costs — Volunteers costs are not a classic cost category. There are no costs because volunteers work for free, but they may nonetheless be added to the budget in the form of a prefixed unit cost (per volunteer) and thus allow you to benefit from the volunteers' work for the grant (by increasing the amount of reimbursement up to 100% of the normal costs, i.e. cost categories other than volunteers). More information is available in the [AGA — Annotated Grant Agreement, art 6.2.A.5](#).

Reporting and payment arrangements

The reporting and payment arrangements are fixed in the Grant Agreement (*Data Sheet, point 4 and art 21 and 22*).

After grant signature, you will normally receive a **prefinancing** to start working on the project (float of normally **80%** of the maximum grant amount; exceptionally less or no prefinancing). The prefinancing will be paid 30 days from entry into force/financial guarantee (if required) — whichever is the latest.

In addition, you will be expected to submit one or more progress reports not linked to payments.

Payment of the balance: At the end of the project, we will calculate your final grant amount. If the total of earlier payments is higher than the final grant amount, we will ask you (your coordinator) to pay back the difference (recovery).

All payments will be made to the coordinator.

Please be aware that payments will be automatically lowered if one of your consortium members has outstanding debts towards the EU (granting authority or other EU bodies). Such debts will be offset by us — in line with the conditions set out in the Grant Agreement (*see art 22*).

Please also note that you are responsible for keeping records on all the work done and the costs declared.

Prefinancing guarantees

If a prefinancing guarantee is required, it will be fixed in the Grant Agreement (*Data Sheet, point 4*). The amount will be set during grant preparation and it will normally be equal or lower than the prefinancing for your grant.

The guarantee should be in euro and issued by an approved bank/financial institution established in an EU Member State. If you are established in a non-EU country and would like to provide a guarantee from a bank/financial institution in your country, please contact us (this may be exceptionally accepted, if it offers equivalent security).

Amounts blocked in bank accounts will NOT be accepted as financial guarantees.

Prefinancing guarantees are formally NOT linked to individual consortium members, which means that you are free to organise how to provide the guarantee amount (*by one or several beneficiaries, for the overall amount or several guarantees for partial amounts, by the beneficiary concerned or by another beneficiary, etc*). It is however important that the requested amount is covered and that the guarantee(s) are sent to us in time to make the prefinancing (scanned copy via Portal AND original by post).

If agreed with us, the bank guarantee may be replaced by a guarantee from a third party.

The guarantee will be released at the end of the grant, in accordance with the conditions laid down in the Grant Agreement.

Certificates

Depending on the type of action, size of grant amount and type of beneficiaries, you may be requested to submit different certificates. The types, schedules and thresholds for each certificate are fixed in the Grant Agreement (*Data Sheet, point 4 and art 24*).

Liability regime for recoveries

The liability regime for recoveries will be fixed in the Grant Agreement (*Data Sheet point 4.4 and art 22*).

For beneficiaries, it is one of the following:

- limited joint and several liability with individual ceilings — *each beneficiary up to their maximum grant amount*
 - unconditional joint and several liability — *each beneficiary up to the maximum grant amount for the action*
- or
- individual financial responsibility — *each beneficiary only for their own debts*.

In addition, the granting authority may require joint and several liability of affiliated entities (with their beneficiary).

Provisions concerning the project implementation

IPR rules: *see Model Grant Agreement (art 16 and Annex 5)*:

- rights of use on results: Yes

Communication, dissemination and visibility of funding: *see Model Grant Agreement (art 17 and Annex 5)*:

- additional communication and dissemination activities: Yes

Other specificities

Non-compliance and breach of contract

 For more information, see [AGA – Annotated Grant Agreement](#).

11. How to submit an application

All proposals must be submitted directly online via the Funding & Tenders Portal Electronic Submission System. Paper applications are NOT accepted.

Submission is a **2-step process**:

a) create a user account and register your organisation

To use the Submission System (the only way to apply), all participants need to [create an EU Login user account](#).

Once you have an EU Login account, you can [register your organisation](#) in the Participant Register. When your registration is finalised, you will receive a 9-digit participant identification code (PIC).

b) submit the proposal

Access the Electronic Submission System via the Topic page in the [Search Funding & Tenders \(europa.eu\)](#) section (or, for calls sent by invitation to submit a proposal, through the link provided in the invitation letter), open your desired call and start submission.

Submit your proposal in 4 parts, as follows:

- Part A includes administrative information about the applicant organisations (future coordinator, beneficiaries, affiliated entities and associated partners) and the summarised budget for the proposal. Fill it in directly online
- Part B (description of the action) covers the technical content of the proposal. Download the mandatory word template from the Submission System, fill it in and upload it as a PDF file
- Part C containing additional project data. To be filled in directly online.
- Annexes (*see section 5*). Upload them as PDF file (single or multiple depending on the slots). Excel upload is sometimes possible, depending on the file type.

The proposal must keep to the **page limits** (*see section 5*); excess pages will be disregarded.

Documents must be uploaded to the **right category** in the Submission System otherwise the proposal might be considered incomplete and thus inadmissible.

The proposal must be submitted **before the call deadline** (*see section 4*). After this deadline, the system is closed and proposals can no longer be submitted.

Once the proposal is submitted, you will receive a **confirmation e-mail** (with date and time of your application). If you do not receive this confirmation e-mail, it means your proposal has NOT been submitted. If you believe this is due to a fault in the Submission System, you should immediately file a complaint via the [IT Helpdesk](#)

[webform](#), explaining the circumstances and attaching a copy of the proposal (and, if possible, screenshots to show what happened).

Details on processes and procedures are described in the [Online Manual](#). The Online Manual also contains the links to FAQs and detailed instructions regarding the Portal Electronic Exchange System.

12. Help

As far as possible, ***please try to find the answers you need yourself***, in this and the other documentation (we have limited resources for handling direct enquiries):

- [Online Manual](#)
- FAQs on the Topic page (for call-specific questions in open calls; not applicable for actions by invitation)
- [Portal FAQ](#) (for general questions).

Please also consult the Topic page regularly, since we will use it to publish call updates. (For invitations, we will contact you directly in case of a call update).

Contact

For individual questions on the Portal Submission System, please contact the [IT Helpdesk](#).

Non-IT related questions should be sent to the following email address: EC-CERV-CALLS@ec.europa.eu.

Please indicate clearly the reference of the call and topic to which your question relates (*see cover page*).

13. Important

IMPORTANT

- **Don't wait until the end** — Complete your application sufficiently in advance of the deadline to avoid any last minute **technical problems**. Problems due to last minute submissions (*e.g. congestion, etc*) will be entirely at your risk. Call deadlines can NOT be extended.
- **Consult** the Portal Topic page regularly. We will use it to publish updates and additional information on the call (call and topic updates).
- **Funding & Tenders Portal Electronic Exchange System** — By submitting the application, all participants **accept** to use the electronic exchange system in accordance with the [Portal Terms & Conditions](#).
- **Registration** — Before submitting the application, all beneficiaries, affiliated entities and associated partners must be registered in the [Participant Register](#). The participant identification code (PIC) (one per participant) is mandatory for the Application Form.
- **Consortium roles** — When setting up your consortium, you should think of organisations that help you reach objectives and solve problems.

The roles should be attributed according to the level of participation in the project. Main participants should participate as **beneficiaries** or **affiliated entities**; other entities can participate as associated partners, subcontractors, third parties giving in-kind contributions. **Associated partners** and third parties giving in-kind contributions should bear their own costs (they will not become formal recipients of EU funding). **Subcontracting** should normally constitute a limited part and must be performed by third parties (not by one of the beneficiaries/affiliated entities). Subcontracting going beyond 30% of the total eligible costs must be justified in the application.

- **Coordinator** — In multi-beneficiary grants, the beneficiaries participate as consortium (group of beneficiaries). They will have to choose a coordinator, who will take care of the project management and coordination and will represent the consortium towards the granting authority. In mono-beneficiary grants, the single beneficiary will automatically be coordinator.
- **Affiliated entities** — Applicants may participate with affiliated entities (i.e. entities linked to a beneficiary which participate in the action with similar rights and obligations as the beneficiaries, but do not sign the grant and therefore do not become beneficiaries themselves). They will get a part of the grant money and must therefore comply with all the call conditions and be validated (just like beneficiaries); but they do not count towards the minimum eligibility criteria for consortium composition (if any).
- **Associated partners** — Applicants may participate with associated partners (i.e. partner organisations which participate in the action but without the right to get grant money). They participate without funding and therefore do not need to be validated.
- **Consortium agreement** — For practical and legal reasons it is recommended to set up internal arrangements that allow you to deal with exceptional or unforeseen circumstances (in all cases, even if not mandatory under the Grant Agreement). The consortium agreement also gives you the possibility to redistribute the grant money according to your own consortium-internal principles and parameters (for instance, one beneficiary can reattribute its grant money to another beneficiary). The consortium agreement thus allows you to customise the EU grant to the needs inside your consortium and can also help to protect you in case of disputes.

- **Balanced project budget** — Grant applications must ensure a balanced project budget and sufficient other resources to implement the project successfully (*e.g. own contributions, income generated by the action, financial contributions from third parties, etc*). You may be requested to lower your estimated costs, if they are ineligible (including excessive).
- **No-profit rule** — Grants may NOT give a profit (i.e. surplus of revenues + EU grant over costs). This will be checked by us at the end of the project.
- **No double funding** — There is a strict prohibition of double funding from the EU budget (except under EU Synergies actions). Outside such Synergies actions, any given action may receive only ONE grant from the EU budget and cost items may under NO circumstances declared to two different EU actions.
- **Completed/ongoing projects** — Proposals for projects that have already been completed will be rejected; proposals for projects that have already started will be assessed on a case-by-case basis (in this case, no costs can be reimbursed for activities that took place before the project starting date/proposal submission).
- **Combination with EU operating grants** — Combination with EU operating grants is possible, if the project remains outside the operating grant work programme and you make sure that cost items are clearly separated in your accounting and NOT declared twice (see [AGA – Annotated Model Grant Agreement, art 6.2.E](#)).
- **Multiple proposals** — Applicants may submit more than one proposal for *different* projects under the same call (and be awarded a funding for them).

Organisations may participate in several proposals.

BUT: if there are several proposals for *very similar* projects, only one application will be accepted and evaluated; the applicants will be asked to withdraw one of them (or it will be rejected).

- **Resubmission** — Proposals may be changed and re-submitted until the deadline for submission.
- **Rejection** — By submitting the application, all applicants accept the call conditions set out in this this Call Document (and the documents it refers to). Proposals that do not comply with all the call conditions will be **rejected**. This applies also to applicants: All applicants need to fulfil the criteria; if any one of them doesn't, they must be replaced or the entire proposal will be rejected.
- **Cancellation** — There may be circumstances which may require the cancellation of the call. In this case, you will be informed via a call or topic update. Please note that cancellations are without entitlement to compensation.
- **Language** — You can submit your proposal in any official EU language (project abstract/summary should however always be in English). For reasons of efficiency, we strongly advise you to use English for the entire application. If you need the call documentation in another official EU language, please submit a request within 10 days after call publication (for the contact information, see *section 12*).

- **Transparency** — In accordance with Article 38 of the [EU Financial Regulation](#), information about EU grants awarded is published each year on the [Europa website](#).

This includes:

- beneficiary names
- beneficiary addresses
- the purpose for which the grant was awarded
- the maximum amount awarded.

The publication can exceptionally be waived (on reasoned and duly substantiated request), if there is a risk that the disclosure could jeopardise your rights and freedoms under the EU Charter of Fundamental Rights or harm your commercial interests.

- **Data protection** — The submission of a proposal under this call involves the collection, use and processing of personal data. This data will be processed in accordance with the applicable legal framework. It will be processed solely for the purpose of evaluating your proposal, subsequent management of your grant and, if needed, programme monitoring, evaluation and communication. Details are explained in the [Funding & Tenders Portal Privacy Statement](#).
